

Breathing Air Compressor Junior II

ST-212565-2003

The Breathing Air Compressor (BAC) JUNIOR II is the most compact and a highly mobile unit. Thanks to its toughness and reliability the Junior compressor has become a global classic.

TRIPLEX® filter system guarantees the purest breathing air according to AS/NZS 1715:1994 and AS/NZS 2299:1999 standards.

Stainless steel and kevlar filling device

Easy to replace filter cartridge

Invest in Bauer quality

Junior II is a product based on more than 50 years experience and strict Bauer Quality Management according to ISO 9001. This is uncompromising quality down to the last detail.

Easy Handling

Symbolic graphics in the compressor manual make it very easy to learn how to operate the unit. Comprehensive technical documentation facilitates simple maintenance work.

Toughness

The unit is supplied with a durable and long-life compressor block. The new protection guard made of unbreakable and UV-resistant plastic, which guarantees a cooling airflow for increased compressor efficiency. Filling devices are made of stainless steel and hoses which are made of kevlar.

Scope of delivery:

- Compressor block 3-stage w/ coolers
- P21 TRIPLEX® filter system
- Single cylinder filling adaptor w/ hose
- Drive motor and starter
- Skid base w/ handle

TECHNICAL DATA

Junior II

Free air delivery (output)*	100 l/min (3.5 cfm)
Pressure rating	200 or 300 bar 200/300 bar with switch-over device
Drive	5.5 HP, 4 – stroke petrol engine 2.2 kW, 415 V, 3 – phase electric motor 2.2 kW, 240 V, 1 – phase electric motor
Filter system	P21 TRIPLEX®
Dimensions	L 78 x W 34 x H 42 cm
Weight	44 – 46 kg

Note:

* Cylinder filling from 0 to 200 bar

ORDER INFORMATION

Capitano 140 Compressor

Junior II-B compressor**	Petrol engine driven unit, complete w/ single fill hose 200 or 300 bar	35 51 036
Junior II-E compressor**	415 V, 3 – phase electric motor driven, complete unit w/ single fill hose 200 or 300 bar	35 51 040
Junior II-W compressor**	240 V, 1 – phase electric motor driven unit, complete w/ single fill hose 200 or 300 bar	35 51 042
Optional equipment		
200 bar twin fill hose kit		35 53 202
300 bar twin fill hose kit		35 53 204
200/300 bar switch-over device with twin hose kit		35 53 205
